- Redford Road – diversion Redford Drive – Thorburn Road
- Thorburn Road – diversion Westgarth Avenue

Questions

Why are we doing the work now?

Works part of ongoing replacement within the Colinton area.
Scheduled to start after summer embargo.

Why the need to close Bridge Street & Redford Road?

A significant amount of heavy machinery including 5 tonne excavators, dumper trucks, pipe team vehicles and Hiab's will require to occupy much of the carriageway.

Road width too narrow to maintain both traffic flow and safe working zones. Meetings on site confirmed this.

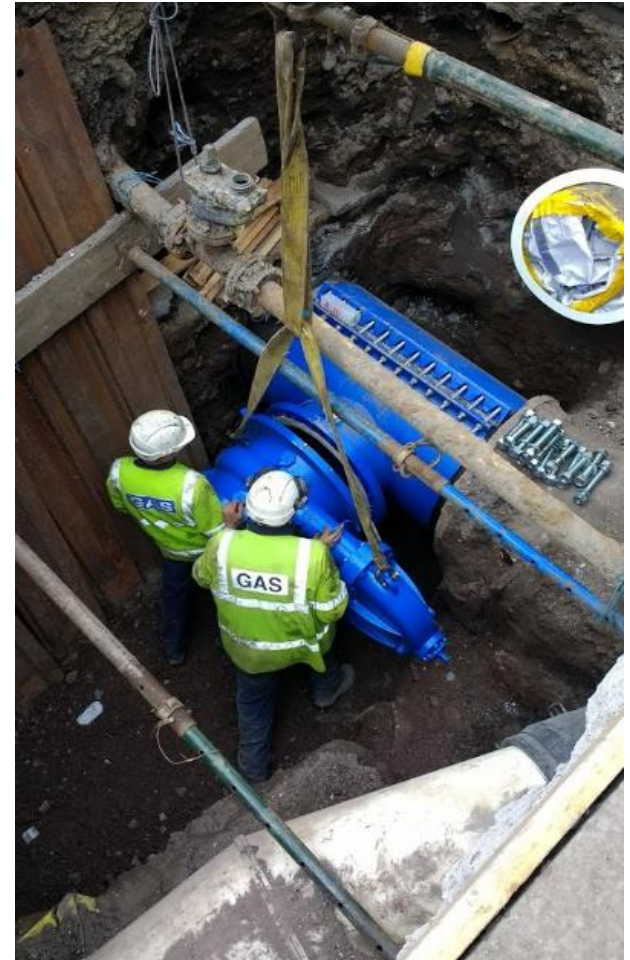

Questions

What will our hours of work be?

SGN intend to work 7am-7pm Mon-Fri at certain locations and weekend working where required. We will have a team of approximately 4 men. Confirmation required from CEC environment

What consideration has been given to waste management?

SGN will liaise closely with the local businesses and councils waste collection to work out suitable times for deliveries and pick ups. Assistance can be provided on these days.

Questions

Looking after
customers

What Comms will be in place for this project?

A dedicated Comms resource has already been appointed and will liaise closely with CEC's own Comms team.

Our stakeholder team also have a list of contacts who will be notified both prior to and throughout works.

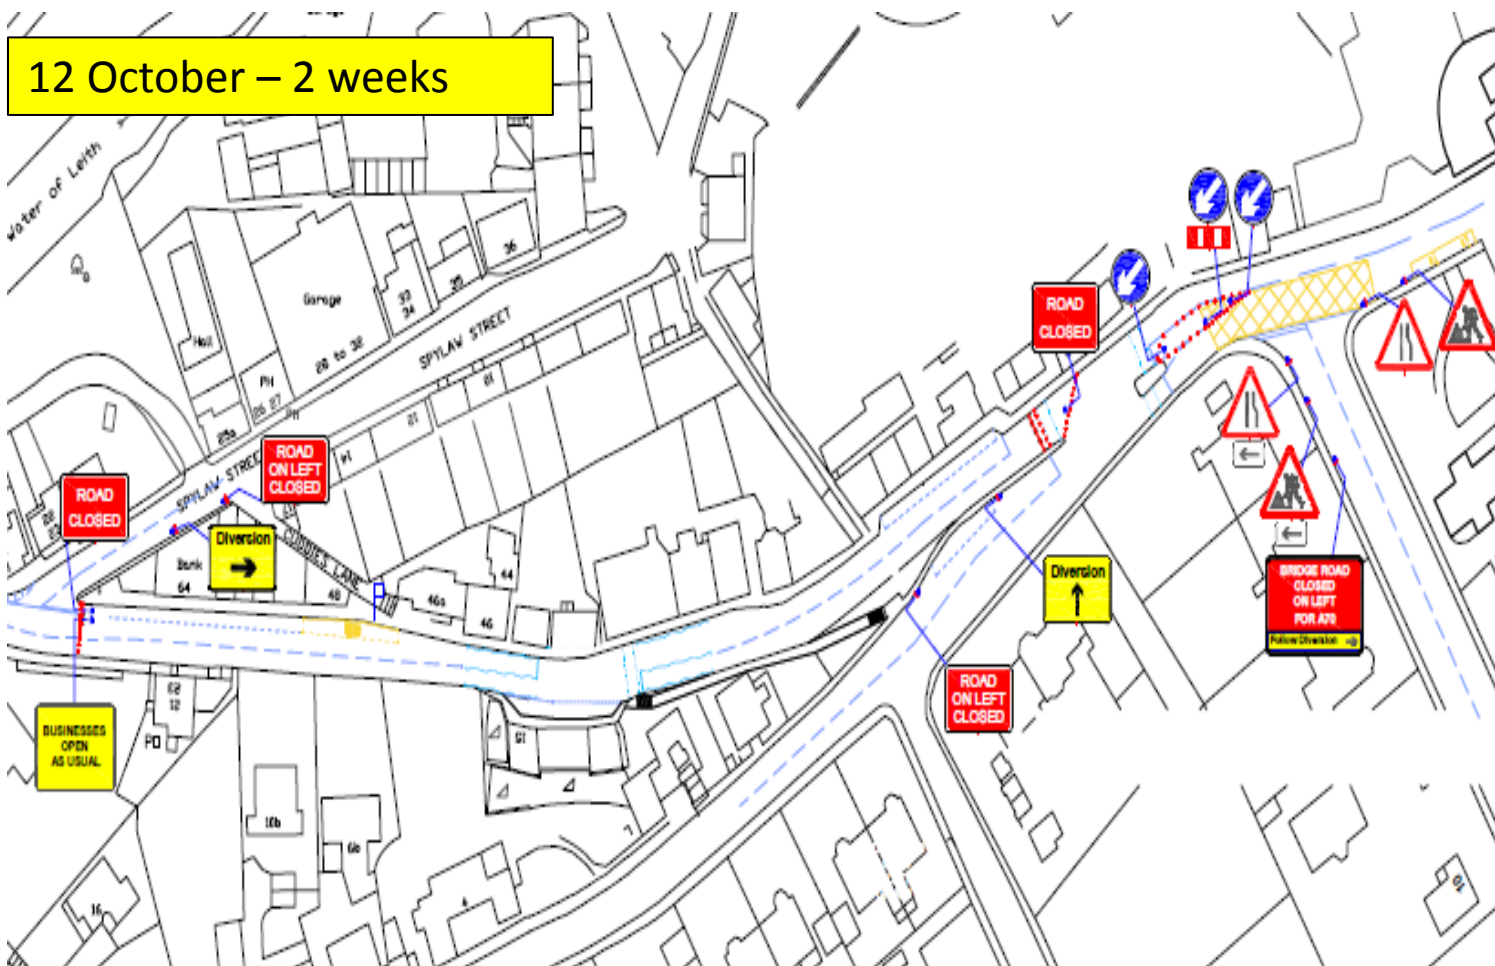

A stakeholder meeting will also be set up.

Who else has been notified?

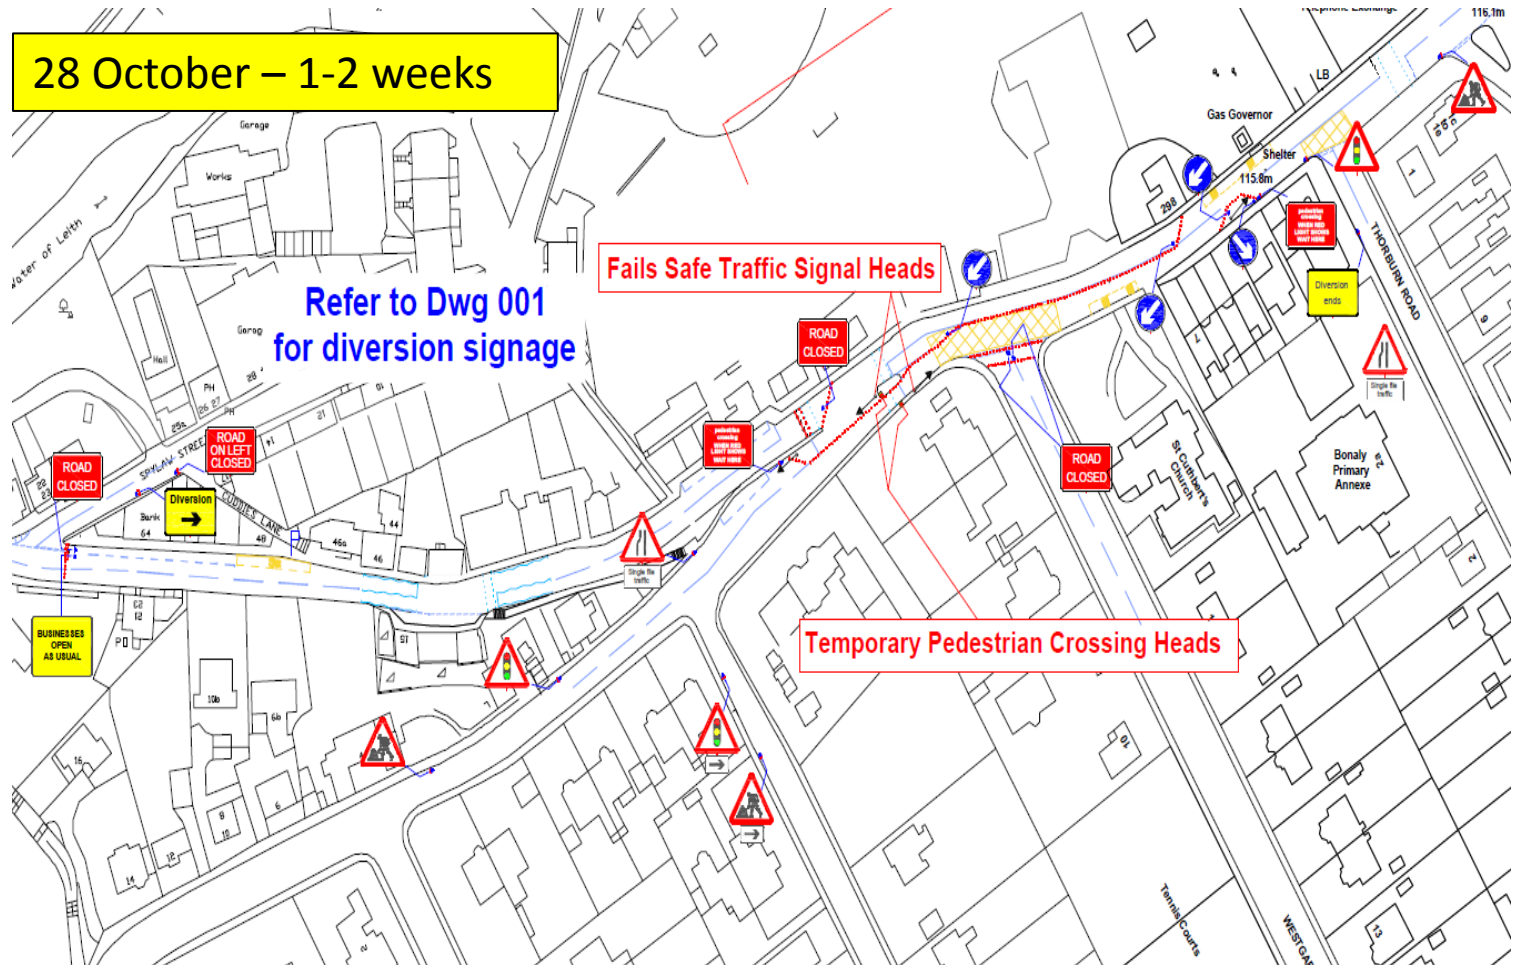

SGN have made Amey Highways aware of our proposals and will update them throughout works.
